

College Board **AP Computer Science** Female Diversity Award

The College Board AP[®] Computer Science Female Diversity Award recognizes schools that are expanding young women's access to computer science coursework in AP Computer Science Principles (AP CSP) and AP Computer Science A (AP CSA). Specifically, College Board is honoring schools that have either reached 50% or higher female examinee representation in one of or both AP computer science courses, or whose percentage of the female examinees met or exceeded that of the school's female population. A total of 1,127 schools are being recognized for their work toward improving gender representation during the 2022–23 school year.
