Course and Exam Description Clarifications and Corrections

About the Advanced Placement Program[®] (AP[®])

The Advanced Placement Program[®] has enabled millions of students to take college-level courses and earn college credit, advanced placement, or both, while still in high school. AP Exams are given each year in May. Students who earn a qualifying score on an AP Exam are typically eligible, in college, to receive credit, placement into advanced courses, or both. Every aspect of AP course and exam development is the result of collaboration between AP teachers and college faculty. They work together to develop AP courses and exams, set scoring standards, and score the exams. College faculty review every AP teacher's course syllabus. We commit to supporting educators and communities in their efforts to make AP courses widely available, advancing students in their plans for college and careers.

Course and Exam Description Clarifications and Corrections

Implemented for Fall 2026

- On the cover, the AP[®] Career Kickstart[™] logo was added.
- In the Course and Exam Description front matter, references to College Board resources were updated (pp. i to 4).
- In the "AP Resources and Supports" section, references to Collaboration Rubrics were removed to reflect available resources on AP Classroom (p. 7).
- Suggested Skills listed on the topic pages were updated to align with Skill Categories 1, 2, and 3. See p. 16 for the full list of Skill Categories.
- Minor formatting and typographical corrections were made to the "Unit at a Glance" sections throughout to improve clarity and consistency.
