Interpersonal Speaking: Conversation 1

Note: Students' responses are quoted verbatim and may contain grammatical errors. In the transcripts of students' speech quoted in the commentaries, a three-dot ellipsis indicates that the sample has been excerpted. Two dots indicate that the student paused while speaking.

Overview

This question assessed speaking ability in the interpersonal mode of communication by having students respond to a series of six questions in a simulated conversation about planning a trip to China. The course content related to the conversation is geography, tourism, and travel, which are in the Units on Factors that Impact the Quality of Life and other topics. Students were allotted 20 seconds to speak at each turn in the conversation. Students had to demonstrate an ability to interact appropriately, given the specified cultural context, in an unrehearsed, spontaneous fashion, and their responses were expected to reflect integration of a variety of critical thinking skills—such as analyzation, synthesis, and evaluation—in the process of meaning negotiation. The following was the questions for the 2021 conversation:

1. 好久不见了，听说你们要去中国旅行了，这太棒了！你们什么时候去中国？为什么想那个时候去？
2. 这次去中国旅行，你们打算去哪个城市或地方？为什么？
3. 在中国的时候，除了去那个城市或地方以外，你自己还想做什么事？为什么？
4. 去中国旅行之前，你们需要做些什么准备？
5. 回来的时候，你想买什么东西或礼物带回家？为什么？
6. 这次去中国，你觉得对你们学习中文会有什么样的帮助？

我想[xiang1]在春天去中國，因為我在那[na2]個時間有空，沒有學校我們放學了。我也知道中國的天氣在春天不太[tai3]熱不太[tai]冷，所以很舒服。

Commentary

The response addresses both questions of the prompt, providing a thorough and elaborative answer to the question (好久不見了，聽說你們要去中國旅行了，這太棒了！你們什麼時候去中國？為什麼想那個時候去？). Sentences are smoothly connected (e.g., 我想[xiang1]在春天去中國，因為...。我也知道...所以...). The speaking pace and intonation are natural, without hesitation and repetition. The use of register is consistently appropriate (e.g., 我想, 也). Rich and appropriate vocabulary is used (e.g., 時間; 有空; 放學; 舒服). A good range of grammatical structures is provided (不太熱不太冷, 因為...所以, 也). Although the response received a score of 6, it can be improved by using more accurate vocabulary (e.g., using 不上課 to replace 沒有學校 and 放假 to replace 放學, and deleting 在 before 春天.). There is also room for tone improvement (e.g., 想[xiang1], 那[na2], [tai3]). At the 6 score level, minimal errors are acceptable. This response demonstrates excellence in interpersonal speaking.

我們[men1]在[zai1]..星期六[liu3]去中國。我們去因為是很熱[re3]可是不是很冷[leng4]。我們沒有學校今天。

Commentary

The response directly addresses the prompt and provides an appropriate answer (我們..在..星期六去中國。我們去因為是很熱可是不是很冷). Sentences are loosely connected (e.g., 我們去因為是很熱可是不是很冷。我們沒有學校今天). The speaking pace is consistent with intermittent hesitation (e.g., 我們..在..星期六去中國). Errors in tones do not necessitate special listener effort (e.g., 們[men1]; 在[zai1]; 六[liu3]; 熱[re3]; 冷[leng4]). The response includes mostly appropriate vocabulary and grammatical structures with errors that do not obscure meaning (e.g., 在..星期六; 是很熱可是不是很冷; 我們沒有學校今天). The response could have received a higher score had it included more details and the sentences were better connected (e.g., 我們喜歡天氣暖和的時候或夏天去中國; 不願意天冷的時候去). It could also be improved by using correct vocabulary and grammar structures (e.g., deleting the verb 是 in 是很熱可是不是很冷), and using the correct word order and words (e.g., using 我們今天不上學 to replace 我們沒有學校今天). This response demonstrates competence in interpersonal speaking.

我們[men1].. 嗯.. 我們在[zai3].. 下月[yue3]去中國。

Commentary

The response directly addresses the prompt and provides an appropriate but incomplete answer, i.e., the reason for time preference is not addressed (為什麼想那個時候去?). The speaking pace is labored with frequent hesitation and repetition (e.g., 我們.. 嗯.. 我們在.. 下月去中國). There are frequent tone errors that necessitate listener effort (e.g., 們[men1], 在[zai3], 月[yue3]). There are errors in vocabulary and grammatical structures that obscure meaning, e.g., the preposition 在 should be deleted and the classifier 個 should be produced before the noun 月 in the sentence 我們在[zai3].. 下月[yue3] 去中國. The appropriate vocabulary is minimal and grammatical structures are very limited. The response could have earned a higher score had it stated a reason why the next month is preferred (e.g., 我們下個月就不會很忙了, 因為要放假了). As it is, the response suggests a lack of competence in interpersonal speaking.

Commentary

The response addresses both parts of the prompt directly and provides a thorough answer to the question of 你們打算去哪個城市或地方？為什麼？ The student first answers the question by stating the city that the class planned to visit (我們打算去北京) and then explains why they wanted to go (因為北京是中國的首都，還有很多地標，可以了解中國的文化，練習點兒中文). Further elaboration and details are added (城市非常漂亮，非常熱鬧). The speaking pace is natural, and pronunciation is accurate, with minimal hesitation and errors (地標 [biao3]). Rich and appropriate vocabulary is used (首都; 地標; 了解; 文化; 練習; 熱鬧). A good range of grammatical structures is also used, such as 因為, 還有, and 另外. Although the response received a score of 6, it can still be strengthened by properly using specifiers, such as 那兒 or 那裏 and 這個. In the sentences 北京還有很多地標 and 北京城市非常漂亮 if the student used 那兒 and 那個 to replace 北京 respectively, the response would be stronger. At the 6 score level, minimal errors such as these are still acceptable. This response demonstrates excellence in interpersonal speaking.

Commentary

The response directly addresses the prompt and provides an appropriate but incomplete answer (Hmm 如果我可以去中國的城市，我想去北京). The student seems to understand the prompt, but the attempt to address it is incomplete (因為他們的，很). The speaking pace is labored, with hesitation and errors in pronunciation and word choice, such as 我想[xiang1], 上海[shang3 hai4], and 還是 should be 或者. The sample contains minimal appropriate vocabulary, with errors that obscure meaning. This response would earn a higher score had it completed the sentence addressing the second part of the prompt, for example, 因為他們是很大的城市，有好看的地方. As it is, the sample suggests a lack of competence in interpersonal speaking.

The sentences are loosely connected. For example, the two sentences 我[wo1]覺得長城[cheng4]是很 . . 有興[xing3]趣 and 我[wo1]覺得北京的 . . um . . 東西 um 文化是 are not well connected. The pace is generally consistent with intermittent hesitation and repetition (um 北京的 . . um . . 東西 uh 文化是). It has errors in tones (我[wo1]; 城[cheng4]; 興[xing3]), which do not necessitate special effort from the listener. The vocabulary and idioms are mostly appropriate (長城; 北京; 興趣; 文化). Grammatical structures are mostly appropriate with errors that do not obscure meaning. For example, in 長城[cheng4]是很 . . 有興[xing3]趣, the use of 有興趣 is not correct, but it does not obscure the meaning of 我對長城很有興趣. The response could have earned a higher score if it had completed the 文化 sentence to add some thoroughness to the content, and correctly used the grammatical pattern (對...有興趣). The response demonstrates competence in interpersonal speaking.

The content of the response is very limited in only one fragmented sentence (我想去[chu1] . . 打[da1] . . 麻將[maljong1] 跟他的). The response is delivered in a labored pace with frequent hesitation and repetition (去[chu1] . . [cough] . . uh . . 去[chu4] . . uh . . 打[da1] . . 麻將). Frequent errors in pronunciation and tones necessitate constant listener effort (去[chu1]; 打[da1] . . 麻將[maljong1]).
