There is no single expected format or style for referring to and identifying sources appropriately. For example, test takers may opt to: directly cite content in quotation marks; paraphrase content and indicate that it is “*according to Source 1*” or “*according to the audio file*”; refer to the content and indicate the source in parentheses “(Source 2)”; refer to the content and indicate the source using the author’s name “(Smith)”; etc.

You should award the score according to the preponderance of evidence present in the majority of the exchanges and in alignment with most, but not necessarily all, criteria listed within a score point.
