Sight Singing Question 2**9 points****General Instructions**

Use EITHER the regular scoring guide OR an alternate scoring guide, whichever gives the higher score.

Moderato

f

I. Regular Scoring Guide

- | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| A. Score 1 point for each segment (i.e., each half-measure) correct in pitch, rhythm, and tempo. | 1 point each
(max 8) |
| B. If at least one segment is correct using I.A. , add 1 point for a complete response that has no hesitations or restarts (= overall flow; the “flow” point). | 1 point |
| C. Record any score of 4 or higher. | |
| D. If the score is less than 4, try an alternate scoring guide. | |

II. Alternate Scoring Guides (Do not award the “flow” point in the alternate scoring guide.)

- | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|
| A. If a student sings many of the pitches correctly but is consistently inaccurate in rhythm, you may determine holistically to award up to 4 points for pitch. | Max 4 |
| OR | |
| B. If a student is accurate or nearly accurate with respect to rhythm but is consistently inaccurate in pitches, you may determine holistically to award up to 2 points for rhythm. | Max 2 |

III. Scores with Additional Meaning

- 1** This score may be given to a response that has *two or more* redeeming qualities (e.g., retention of the tonic pitch and singing the melody with a correct contour; persistence alone is *not* a redeeming quality).
- 0** This score is used for a response that has no redeeming qualities (or only one) or a response that is off-topic or irrelevant.
- NR** This score (no response) is used for blank responses (including spoken AP number but no response).

IV. Scoring Notes

- A. If a student restarts, score the last *complete* response, but do *not* award the “flow” point. If none are complete, score the last response.
- B. Score from the tonic established by the student. However, credit any exactly transposed segment approached by the correct interval. In other words, *any segment entered correctly (by the correct interval) is eligible for the point.*
- C. The last note may be eligible for the point if the student returns to the original tonic, even if the preceding segments have been transposed, and the original tonic is not approached correctly.
- D. If the student changes tempo and continues in the new tempo, do not credit the segment where the change occurs, but credit the ensuing segments.
- E. The last note must be held at least to the attack of the final eighth note of measure four and may not continue more than one eighth note beyond the bar line for that segment to receive credit.
- F. Ignore any use (correct or incorrect) of syllables, letter names, or numbers, as well as expletives, giggles, etc.
- G. If you try both regular and alternate guides, record the higher of the scores.
- H. Scores from one guide may *not* be combined with those of another.
- I. Listen beyond the end of the performance to ensure that the student made no additional response.

For regular scoring, record points for correct segments and flow in the boxes below. For alternate scoring, award points holistically.

Segment	1	2	3	4	5	6	7	8	Flow	Total
Regular Scoring										

Question S2

Note: Student samples are quoted verbatim and may contain spelling and grammatical errors.

Overview

The question overviews can be found in the “Chief Reader Report on Student Responses” on [AP Central](#).

Sample: S2A

Score: 8

This represents a good response. Because segments one, two, four, five, six, seven, and eight are sung with the correct pitch and rhythm, 7 points were awarded using the Regular Scoring Guide. Segment three contains errors in rhythm. There are no hesitations or restarts, so the flow point was also awarded. Scoring by segments was $1101+1111+1=8$.

Sample: S2B

Score: 5

This represents a fair response. Because segments one, two, four, and eight are sung correctly in both pitch and rhythm, 4 points were awarded using the Regular Scoring Guide. Segments three, five, six, and seven contain errors in pitch (but not rhythm). Because there are no hesitations or restarts, the flow point was awarded. Scoring by segment was $1101+0001+1=5$.

Sample: S2C

Score: 3

This represents a poor response. Because segments seven and eight are sung correctly in both pitch and rhythm, 2 points were awarded using the Regular Scoring Guide. Segments one, two, three, and six contain errors in pitch (but not rhythm). Segment five contains an error in rhythm (but not pitch). Segment four contains errors in pitch and rhythm. (Segment four is approached by ascending major second and would have been awarded 1 point by transposition if it were correct in rhythm.) Because there are no hesitations or restarts, the flow point was awarded. Scoring by segment was $0000+0011+1=3$.
