**AP Equity and Access Policy**

College Board strongly encourages educators to make equitable access a guiding principle for their AP® programs by giving all willing and academically prepared students the opportunity to participate in AP. We encourage the elimination of barriers that restrict access to AP for students from ethnic, racial, and socioeconomic groups that have been traditionally underrepresented. Schools should make every effort to ensure that their AP classes reflect the diversity of their student population. College Board also believes that all students should have access to academically challenging coursework before they enroll in AP classes, which can prepare them for AP success. It is only through a commitment to equitable preparation and access that true equity and excellence can be achieved.

AP Capstone Program Overview

Where to Find Information

The publications below provide details about the AP Capstone Diploma™ program. Also see the AP Capstone™ section of AP Central® at collegeboard.org/apcapstone and the resources listed on page 38.

The AP Capstone Implementation Guide provides essential information for schools starting an AP Capstone program. It includes program requirements and policies, program costs, implementation models, and staffing ideas as well as easy-access links.

Part 1 and Part 2 of the 2019-20 AP Coordinator’s Manual contain important information about the AP coordinator’s role in the AP Capstone program, including directions on how to order and administer AP Capstone assessments. Schools will receive Part 1 in August 2019 and Part 2 in December 2019.

The AP Seminar Course and Exam Description provides the pedagogical framework, curricular requirements, instructional approaches, and assessment details for the AP Seminar course.

The AP Research Course and Exam Description provides the pedagogical framework, curricular requirements, instructional approaches, and assessment details for the AP Research course.
What’s New in 2019-20?

All AP coordinators, teachers, and students will go to myap.collegeboard.org to access their new My AP experience. From My AP:

- **Coordinators** use AP Registration and Ordering to organize student exam registrations and submit exam order.
- **Teachers** use AP Classroom to access and assign free instructional resources.
- **Students** access AP Classroom assignments from their teachers and register for exams.

AP Teachers

- At the beginning of the school year, AP Seminar and AP Research class sections will be created by your school’s AP coordinator. Once your class sections are created, you’ll sign in to myap.collegeboard.org to get the join code for each section and distribute join codes to your students so they can enroll. These class sections and enrollments will automatically be added to the **AP Digital Portfolio**.
- If your coordinator chooses not to create class sections, you can create your own in AP Classroom.

AP Students

- Students will use the provided join code to enroll in AP class sections at the beginning of the school year. Once they enroll in their section, they will be automatically added to the digital portfolio. Students do not have to enroll in the digital portfolio separately.
- Students will no longer have to enter an AP number into the digital portfolio in April. When they provide their registration information in My AP when first enrolling in a class section, they’ll be assigned a unique, alphanumeric AP ID. This AP ID replaces the AP number.
- Each student included in an exam order will receive a set of personalized AP ID registration labels to connect their exam materials with their registration information.
- AP Research students no longer need to complete an answer sheet.

AP Coordinators

- The deadlines for ordering AP Exams, including AP Seminar and AP Research Exams, are now in the fall. Ordering deadlines apply to all schools, including those outside the U.S., U.S. territories, and Canada. International schools don’t have different ordering deadlines.
- The fee for AP Seminar and AP Research Exams remains $142 per exam; however, this year additional fees may apply for exams that are ordered late, canceled, or unused. See the **AP Coordinator’s Manual, Part 1**, for more details.
- At the start of the school year, you’ll create class sections in AP Registration and Ordering for each of your school’s AP classes. A join code will be generated for each class section, which you can either provide to each teacher, or they can sign in to AP Classroom to retrieve it. Students will use join codes to enroll in their AP class sections.
- The final amount invoiced is no longer determined by whether a student has submitted their performance tasks or started the end-of-course exam. Schools will be billed for all exams that are part of their exam order at the time the invoice is generated.
- You’ll no longer need to order preadministration materials. Students will complete a new digital activation process at the start of the school year that will directly link their information from My AP to the AP Digital Portfolio.
- Answer sheets for AP Research are no longer needed.
How AP Capstone Works

The AP Capstone Diploma program is a college-level program based on two courses—AP Seminar and AP Research—that complement and enhance discipline-specific AP courses.

The program gives students a chance to practice core academic skills that are increasingly valued by colleges. The ability to think independently, write effectively, research, collaborate, and learn across disciplines is essential for success in college, career, and beyond.

Students who earn scores of 3 or higher in AP Seminar and AP Research and on four additional AP Exams of their choosing receive the AP Capstone Diploma. This signifies their outstanding academic achievement and attainment of college-level academic and research skills. Students who earn scores of 3 or higher in both AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate™.

AP Capstone was developed in response to feedback from higher education and is easily implemented and flexible. It has the potential to differentiate and transform high schools and their students by elevating the learning environment through a challenging, college-level program with high standards of assessment.
Benefits of AP Capstone

STUDENTS

- Fosters the research, argumentation, and communication skills at the core of college readiness and lifelong learning.
- Provides a setting to build on the knowledge and rigorous coursework of AP in an interdisciplinary format.
- Lets students show colleges that they’ve challenged themselves academically and also illustrate their passion and interest in specific research topics.
- Makes students self-confident, independent thinkers prepared for higher education.
- Allows students to collaborate on their research topics with higher education faculty and/or local community leaders.

HIGH SCHOOLS

- Allows high schools to differentiate themselves by offering an innovative diploma program and two exclusive courses: AP Seminar and AP Research.
- Lets teachers improve their teaching skills in a student-centered classroom environment.
- Offers a flexible curricular content model that encourages creativity and student input.
- Offers an implementation model that schools can customize for scheduling demands, curricular structures, or state and local requirements.
- Builds professional excellence in a weeklong, collaborative professional development institute.

HIGHER EDUCATION

- Helps high school students develop research, collaboration, and communication skills essential for college and career success.
- Identifies students with the research, writing, and collaboration skills necessary to complete college.
- Identifies students who are able to articulate their passions and interests in specific research topics.
- Provides consistent, externally validated measures of student ability.
- Demonstrates a student’s research and writing ability through a 4,000- to 5,000-word scholarly research paper.
- For credit policy and other information, visit collegeboard.org/apcapstonehed.
AP Capstone Pedagogical Framework

Students explore issues and topics using a pedagogical framework provided by the College Board. This framework lets them develop, practice, and hone critical and creative thinking skills and make connections between various issues and their own lives. This recursive process allows students to go back and forth between the skills as they encounter new information.

AP Capstone™

An Instructional Foundation

**Question & Explore**
Challenge and expand the boundaries of your current knowledge.

**Understand & Analyze**
Contextualize arguments and comprehend authors’ claims.

**Evaluate Multiple Perspectives**
Consider individual perspectives and the larger conversation of varied points of view.

**Synthesize Ideas**
Combine knowledge, ideas, and your own perspective into an argument.

**Team, Transform & Transmit**
Collaborate, reflect, and communicate your argument in a method suited to your audience.

Use these QUEST skills as you advance to college, career, and beyond.
**AP Seminar Overview**

AP Seminar is a foundational course that engages students in cross-curricular conversations where they can explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational, literary, and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. They synthesize information from multiple sources, develop their own perspectives in written essays, and design and deliver oral and visual presentations, both individually and as a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision so they can craft and communicate evidence-based arguments.

Exploring different points of view and making connections across disciplines are fundamental components of the AP Seminar experience. Students consider one topic or issue from multiple perspectives, many of which are divergent or competing. Analyzing topics through multiple lenses aids in interdisciplinary understanding and gives students a rich appreciation for the intricacy of important issues.

Teachers have the flexibility to choose one or more appropriate themes that encourage deep interdisciplinary exploration based on:

- Academic problems or questions
- Concepts or issues from other AP courses
- Global or international topics
- Local and/or civic issues
- Student interests

**AP Seminar Assessments**

Students are assessed with two through-course performance tasks and one end-of-course exam. All three assessments are summative and used to calculate a final AP score (using the 1–5 scale) for AP Seminar.

For details on each AP Seminar assessment, see pages 36–45 of the *AP Seminar Course and Exam Description*. For details on the AP Seminar Exam fee, see the Exam Fees section on page 21 of this guide.
AP Seminar Performance Task 1: Team Project and Presentation—20% of the AP Seminar Score

The following components are formally assessed:

| COMPONENT                                    | SCORING METHOD               | WEIGHT  
|----------------------------------------------|------------------------------|---------
| Individual Research Report (IRR)             | College Board scored         | 50% of 20%  
| (1,200 words)                               |                              |         
| Team Multimedia Presentation and Defense (TMP) | Teacher scored (group score) | 50% of 20%  
| (8–10 minutes, plus defense questions)       |                              |         

Recommended Completion Date: February 28  
Submission Deadline: April 30, 11:59 p.m. ET

Note: Teachers must carefully plan a calendar that provides sufficient time for tasks to be completed, scored, and uploaded by April 30 at 11:59 p.m. ET. Only the Individual Research Report is submitted through the AP Digital Portfolio. AP Seminar teachers are required to keep video files of the Team Multimedia Presentation and Defense for one academic year because the College Board may request to review the scoring for these components to identify samples for scoring training and to ensure scoring quality.

AP Seminar Performance Task 2: Individual Research-Based Essay and Presentation—35% of AP Seminar Score

The following components are formally assessed:

| COMPONENT                                    | SCORING METHOD               | WEIGHT  
|----------------------------------------------|------------------------------|---------
| Individual Written Argument (IWA)            | College Board scored         | 70% of 35%  
| (2,000 words)                               |                              |         
| Individual Multimedia Presentation (IMP)      | Teacher scored               | 20% of 35%  
| (6–8 minutes)                                |                              |         
| Oral Defense (OD)                            | Teacher scored               | 10% of 35%  
| (two questions from the teacher)              |                              |         

Recommended Completion Date: April 15  
Submission Deadline: April 30, 11:59 p.m. ET

Note: Students must be given at least 30 school days (state testing, spring breaks, holidays, etc., would not count toward those days) to complete their research, compose their essays, and develop their presentations. The actual presentations must take place outside the 30-day window. The task is complex and rigorous, so students must be given sufficient time to complete it. Teachers would disadvantage students by giving them less time. Giving more time could also disadvantage students by reducing the time available for completing the Team Project and Presentation. Teachers should collect written work and presentation media from every student in the school's AP Seminar course(s) before any student actually delivers the oral presentation. Teachers must carefully plan a calendar that provides time for all the tasks to be completed, scored, and submitted as final by April 30 at 11:59 p.m. ET.
**AP Seminar End-of-Course Exam (2 hours)—45% of AP Seminar Score**

**2020 Exam Date:** Tuesday, May 12, 2020, at 8 a.m. See [Exam Dates and Fees](#) for other exam dates.

During the AP Exam administration window, students take the AP Seminar End-of-Course Exam. The exam consists of four items (three short-answer questions and one essay question). The three short-answer questions assess analysis of an argument in a single source or document. The essay question assesses students' skills in synthesizing and creating an evidence-based argument.

The following components are formally assessed:

<table>
<thead>
<tr>
<th>COMPONENT</th>
<th>SCORING METHOD</th>
<th>WEIGHT</th>
</tr>

**AP Research Overview**

**Prerequisite:** AP Seminar is a prerequisite for AP Research. See the Prerequisite policy on page 14 for more information.

AP Research allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a yearlong investigation to address a research question.

In the AP Research course, students further develop the skills acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill
development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio.

In the classroom and independently (while possibly consulting with an expert adviser in the field), students learn and employ research and inquiry methods to develop, manage, and conduct an in-depth investigation of an area of personal interest. The course culminates in an academic paper of 4,000 to 5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense. The academic paper includes the following components:

- Introduction
- Method, Process, or Approach
- Results, Product, or Findings
- Discussion, Analysis, and/or Evaluation
- Conclusion and Future Directions
- Bibliography

Using a process and reflection portfolio (PREP), students document their inquiry processes, communication with their teachers and expert advisers as needed, and reflections on their thought processes. They have scheduled conferences with their teachers for review and approval of their scholarly work as evidenced by the portfolio.

Students present (using appropriate media) and defend the topic of inquiry/research question, approach, and findings or product to a panel.

**AP Research Assessments**

Students are assessed with one through-course performance task consisting of two distinct components. Both components are included in the calculation of students’ final AP scores. There’s no end-of-course exam for AP Research.

For details on each AP Research assessment, See pages 47–53 of the *AP Research Course and Exam Description*. For details on the AP Research Exam fee, see the Exam Fees section on page 21 of this guide.

The following components are formally assessed:

<table>

</table>

| Presentation and Oral Defense (POD)            | Teacher scored           | 25%    |
| (15–20 minutes total for presentation followed by three or four questions from a panel of three evaluators) |                          |        |

*Recommended Completion Date:* April 15  
*Submission Deadline:* April 30, 11:59 p.m. ET
**Note:** Teachers must carefully plan a calendar that provides time for the performance task to be completed, scored, and submitted as final by April 30 at 11:59 p.m. ET. Only the Academic Paper is uploaded to the AP Digital Portfolio. AP Research teachers are required to keep video files of the Presentation and Oral Defense for one academic year because the College Board may request to review the scoring for this component to identify samples for scoring training and to ensure scoring quality.

---

**AP Capstone Policies**

Certain policies are critical to the successful implementation of AP Capstone at your school. Your adherence to program policies and exam procedures, including performance tasks, is critical to producing valid AP scores. Violations of program policies and/or exam procedures may result in the cancellation of student scores and/or your school being withdrawn from the AP Capstone program by the College Board.

The policies and language below are in effect for the 2019-20 school year.

**PARTICIPATION**

Schools must submit an application and be approved to join the AP Capstone program. Only students whose schools offer the AP Capstone program can enroll in AP Seminar or AP Research and submit performance tasks and/or take the AP Seminar End-of-Course Exam. Homeschooled students, homeschool organizations, and online providers aren’t eligible to participate in AP Capstone.

**PREREQUISITE**

Students must first complete AP Seminar, including the end-of-course exam and all required performance tasks, to develop the skills necessary to succeed in AP Research. Students who score a 1 or 2 in AP Seminar are still eligible to enroll in AP Research, but they may need additional support and guidance during the course.

**PLAGIARISM AND FALSIFICATION OR FABRICATION OF INFORMATION**

Participating teachers shall inform students of the consequences of plagiarism and instruct students to ethically use and acknowledge the ideas and work of others throughout their coursework. The student’s individual voice should be clearly evident, and the ideas of others must be acknowledged, attributed, and/or cited.

A student who fails to acknowledge the source or author of any and all information or evidence taken from the work of someone else through citation, attribution, or reference in the body of the work, or through a bibliographic entry, will receive a score of 0 on that particular component of the AP Seminar and/or AP Research Performance Task. In AP Seminar, a team of students that fails to properly acknowledge sources or authors on the Team Multimedia Presentation will receive a group score of 0 for that component of the Team Project and Presentation.

A student who incorporates falsified or fabricated information (e.g., evidence, data, sources, and/or authors) will receive a score of 0 on that particular component of the AP Seminar and/or AP Research Performance Task. In AP Seminar, a team of students that incorporates falsified or fabricated information in the Team Multimedia Presentation will receive a group score of 0 for that component of the Team Project and Presentation.
**USING TURNITIN**

In keeping with AP Capstone’s policy on plagiarism, AP Capstone teachers and students will use Turnitin to evaluate the originality of student work and ensure that appropriate citations are included. Access to Turnitin is provided to participating AP Capstone schools (for their AP Seminar and/or AP Research classes only). Turnitin is a valuable tool for teaching students about citation, but it is not a plagiarism detector. Feedback from Turnitin should be considered in context and not simply taken at face value. Visit the Turnitin Instructor Training page for more information on accessing and interpreting originality reports.

**TEST SECURITY AND SHARING OF EXAM CONTENT**

The College Board test security and test administration policies and procedures are designed to protect the integrity of the AP Exam and AP Exam scores. The policies and procedures have been developed to afford all students equivalent opportunities to demonstrate their knowledge on exam day and prevent any students from gaining an unfair advantage. Schools and students must adhere to all test security policies set forth in Part 2 of the AP Coordinator’s Manual, the Bulletin for AP Students and Parents, and any addenda. Students and educators may only discuss free-response content or sources released on the College Board website two days after the exam administration. If the content or sources in the exam aren’t released, students may not discuss them with anyone. Violation of test security policies may result in score cancellation and, under some circumstances, individuals may be permanently barred from future testing.

**EXAM ORDERING**

AP coordinators must submit an order for AP Seminar and/or AP Research Exams through AP Registration and Ordering (myap.collegeboard.org) for all students included in their exam roster by the ordering deadline indicated in Part 1 of the AP Coordinator’s Manual. An exam must be ordered for an AP Seminar or AP Research student in order for their work to be scored by the College Board.

If a student doesn’t plan to submit a performance task for scoring or take the end-of-course exam, their Order Exam? status should be set as No in the exam roster in AP Registration and Ordering.

**BILLING**

Standard billing and fee policies apply to AP Seminar and AP Research. See Part 1 of the AP Coordinator’s Manual for detailed information about billing and fees.

**RESCORING**

AP Seminar and AP Research performance tasks, as well as the AP Seminar End-of-Course Exam, consist of free-response questions, academic papers, or presentations, and therefore aren’t rescored.

Students can get their AP Seminar End-of-Course Exam Free-Response booklets for a fee. No comments, corrections, or scores are included. Booklets for exams for which sources aren’t released on the College Board website (for example, late-testing exams) aren’t available.

**SCORE WITHHOLDING AND CANCELLATION**

If a student chooses to withhold or cancel their score for AP Seminar or AP Research, the entire AP Seminar or AP Research score, including the end-of-course exam and performance tasks, is withheld or canceled. If a student submits any of the performance tasks in AP Seminar or AP Research as final or takes the AP Seminar End-of-Course Exam, they’ll receive a final AP score unless they cancel it.
ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES
Students with documented disabilities may be eligible for accommodations on AP Seminar and AP Research Exams. A student must be approved for accommodations by the College Board Services for Students with Disabilities (SSD) office. For complete information on SSD eligibility, go to collegeboard.org/apssd.

RETENTION OF PERFORMANCE TASK PRESENTATION VIDEOS
AP Seminar and AP Research teachers must keep video files of all performance task presentations and oral defenses for at least one academic year because the College Board may request to review the scoring of these components to identify samples for scoring training and to ensure scoring quality. The College Board directly contacts selected teachers to submit video files with instructions for providing samples and signed release forms for their students.

ROLE OF TEACHER AND EXPERT ADVISER
Please see the AP Seminar and AP Research Course and Exam Descriptions (pages 38–42 and 50–52, respectively) to learn about the role of teachers and expert advisers.

PROFESSIONAL DEVELOPMENT
Professional development is required for all new AP Seminar and AP Research teachers. Teachers won’t be able to submit a syllabus for AP Course Audit authorization or access the AP Digital Portfolio without attending in-person training. Training is optional for returning teachers or interested administrators at schools accepted into the AP Capstone program. Teachers complete training once before the first year they teach the course—this isn’t an annual requirement.

A limited number of scholarships for teachers from eligible schools are available through an application process.

Professional development is offered by select AP Summer Institutes (APSIs) throughout the summer. Each session takes place over a consecutive four-and-a-half-day period for 30 contact hours. Schools and teachers may attend the select APSI of their choice, space permitting, but teachers must be present for each day of the session. Teachers who aren’t present for any part of the training won’t be authorized to teach AP Seminar or AP Research.

In addition, AP Seminar and AP Research teachers need to complete and pass online scoring training annually to obtain access to score their students’ work. This training is virtual and self-paced. The training modules will be available at a time to be announced during the academic year.

For more information on AP Capstone professional development, visit collegeboard.org/apcapstonepd.

AP CAPSTONE TEACHER CONFLICT OF INTEREST POLICY
AP Capstone courses and assessments involve the scoring of student through-course performance tasks by the classroom teacher; therefore, it’s important to explain how the existing AP Conflict of Interest Policy found in the AP Program Guide and AP Coordinator’s Manual applies. To avoid any perceived conflict of interest, the College Board recommends that no AP Seminar and AP Research teachers should be the classroom teacher for any student who is an immediate family or household member and is enrolled in AP Seminar or AP Research because this would put the teacher in the position of scoring official AP assessments. To avoid a perceived conflict of interest, the College Board recommends that the immediate family or household member who is enrolled in AP Seminar or AP Research
(student) should be transferred to another class section that is taught by another teacher who doesn't pose a conflict of interest. Alternatively, if there is only one AP Seminar or one AP Research teacher and a schedule change won't resolve the conflict, the school should designate a different teacher to complete required online scoring training for either course and to score the affected student’s presentation performance task components. Replacement scorers must contact apcapstone@info.collegeboard.org to request access to online scoring training modules. No additional cost is incurred by a school that requires a replacement scorer.

The College Board renders the aforementioned recommendations in an effort to ensure that all AP Capstone Exams and courses are administered under standardized conditions and to prevent any student from receiving an unfair advantage on the AP Capstone course and exam. Such recommendations should be enforced by participating schools, their personnel, and their students to the extent feasible and in accordance with each school’s current policies and procedures applicable to such situations.

REPLACING AP CAPSTONE TEACHERS MIDYEAR
AP Seminar and AP Research teachers must complete AP Capstone Professional Development before teaching either course. See the Professional Development section for more information.

In rare cases—such as resignation, termination, personal leave, extended illness, or death—AP Capstone teachers must be replaced during the school year. In these cases, a school may assign a teacher who hasn't completed required training to an AP Seminar or AP Research classroom. The program must be notified about replacement teachers by contacting apcapstone@info.collegeboard.org.

Depending on timing, the replacement teacher may need to complete and pass required AP Capstone online scoring training and fulfill scoring responsibilities set forth in this AP Capstone Implementation Guide. The school leader and the replacement teacher should work together to see these requirements are met.

Any replacement teacher wishing to teach AP Seminar or AP Research in a future academic year must complete AP Capstone Professional Development before teaching the course again.

STUDENT EXTENDED ABSENCE AND PERFORMANCE TASKS
General Recommendations
In the event that a student experiences an unavoidable and extended absence from school and isn’t able to participate in the AP Capstone Performance Tasks (AP Seminar: Team Project and Presentation; Individual Research-Based Essay and Presentation; AP Research: Academic Paper; Presentation and Oral Defense) or any individual components of these tasks, the school/teacher should be as accommodating as possible, using technology or other means that allow the student to participate in the entire task or one or more of its components. If the student is unable to participate, for example, in the entire Team Project and Presentation or is unable to complete one or more components of either of the two performance tasks, the College Board recommends one of the following options:

1. Continue in the course and have their completed tasks (or components) scored taking whatever AP score is earned. For example, if an AP Seminar student is unable to participate in the Team Project and Presentation, the student could choose to complete the Individual Research-Based Essay and Presentation and the End-of-Course Exam
and accept the AP score earned from these two completed assessments. (In this scenario, the teacher would remove the student from the team, and the student would receive a score of 0 for any assessment components not completed.); or

2. Continue in the course and then cancel their scores by completing the AP Score Cancellation Form by the published deadline (usually by mid-June). For example, if a student is unable to participate in the AP Seminar Team Project and Presentation, they may complete the other performance task and, if the student doesn’t think their performance on the Individual Research-Based Essay and Presentation and End-of-Course Exam will earn a score the student wants to keep on record, they may cancel the score; or

3. The student may elect to drop the course altogether and consider re-enrolling the following academic year.

An AP Research student who doesn’t submit an Academic Paper is ineligible to receive a score on the Presentation and Oral Defense and may elect to drop the course and re-enroll the following academic year.

The College Board renders the aforementioned recommendations in an effort to ensure that all AP Capstone exams and courses are administered under standardized conditions and to prevent any student from receiving an unfair advantage on the AP Capstone course and exam. Such recommendations should be enforced by participating schools, their personnel, and their students to the extent feasible and in accordance with each school’s then current policies and procedures applicable to such situations.

Considerations for AP Seminar

1. If the student is unable to complete the Individual Research Report component of the AP Seminar Team Project and Presentation, the student would be ineligible to receive a score for the Team Multimedia Presentation because the presentation is dependent on all team members’ individual research. As a result, the student would receive no score for the entire Team Project and Presentation. If a student is in the process of completing the Team Project and Presentation and they drop out of the group in the middle of the performance task, the remaining group members should receive scores based on the active members in the group.

2. A student with extended absences may be removed from an AP Seminar team without consequence for the other students on the team, provided that all task instructions are followed to ensure completion of the Team Multimedia Presentation. However, teachers should attempt to accommodate students with extended absences as much as possible, using technology or other means to encourage participation, before considering dropping a student from a team.

3. Students who don’t complete the Individual Written Argument aren’t eligible to receive scores in the Individual Multimedia Presentation or the Individual Oral Defense.

4. For a student to receive an AP Seminar score, an exam must be ordered for them and that student must take the AP Seminar End-of-Course Exam. Students who submit any performance tasks as final but don’t take the AP Seminar End-of-Course Exam will not receive an AP Seminar score.

5. It’s acceptable for an AP Seminar student who hasn’t completed one or more AP Seminar Performance Tasks to take the End-of-Course Exam.
6. Students must first complete AP Seminar, including the end-of-course exam and all required performance tasks, to develop the skills necessary to succeed in AP Research. Students who score a 1 or 2 in AP Seminar are still eligible to enroll in AP Research but might need additional support and guidance during the course.

Considerations for AP Research
If an AP Research student is unable to complete the Academic Paper, the student would be ineligible to receive a score for the Presentation and Oral Defense because the presentation and oral defense component is dependent on the research in the Academic Paper.

Assigning AP Capstone Course Grades on Student Transcripts
Assigning course grades for AP Seminar and AP Research on student high school transcripts is a local decision and is only dependent on an AP Capstone teacher having received course authorization through the AP Course Audit. Receiving a course grade for AP Seminar or AP Research isn't affected by a student's completion of the through-course assessments or the AP Seminar End-of-Course Exam, unless there is a school or district policy that dictates otherwise. Teachers should follow local policies when assigning course grades for students with extended absences from AP Capstone courses.

RETAking AP Seminar AND/OR AP RESEARCH
AP Seminar
Students may retake AP Seminar; however, they may not resubmit the work they produced in previous AP Seminar courses as part of their through-course assessment(s).

Students who retake AP Seminar must complete all Performance Tasks and the End-of-Course Exam; individual component, task, or exam scores from previous years can't be applied.

AP Research
Students may retake AP Research; however, they may not resubmit the work they produced in previous AP Research courses as part of their through-course assessment(s).

Students who retake AP Research must complete the Academic Paper and Presentation and Oral Defense on a new research topic; individual component scores from previous years can't be applied.

STUDENT TRANSFER POLICY
The following protocols should be followed for students who transfer from one school to another.

From an AP Capstone School to Another AP Capstone School
A student who is enrolled in an AP Capstone course and who transfers to another AP Capstone school may continue to participate in the AP Capstone course at their new school, provided the new school is offering the course. If a student transfers during the academic year, the new school should make every effort to capture the work previously completed by the student before the transfer.

From an AP Capstone School to a Non-AP Capstone School
A student who is enrolled in an AP Capstone course and who transfers to a school that doesn't offer the program may not continue to participate in the AP Capstone course. At this time, schools that aren't authorized to offer AP Capstone courses can't accommodate students who may have been enrolled in an AP Capstone course prior to their transfers.
From a Non-AP Capstone School to an AP Capstone School
A student who isn't enrolled in an AP Capstone course and who transfers to an AP Capstone school may begin to participate in an AP Capstone course at the discretion of the new school. The time in the school year when the transfer occurs may play a role in determining whether the student is eligible to participate in an AP Capstone course, given the nature of the through-course assessment(s).

Note: Instructions for indicating transfer students in AP Registration and Ordering are included in Part 1 of the AP Coordinator’s Manual. The manual also includes detailed information about exam fee policies related to transfer students.

For Administrators

AP Capstone Program Costs
Schools must apply and be approved to participate in the AP Capstone program. However, no school application or registration fees are required, and no annual administrative fees are charged by the College Board to participating schools or districts. We suggest that administrators consider the costs below when planning to implement AP Capstone courses.

PROFESSIONAL DEVELOPMENT
Required professional development is offered by select AP Summer Institutes (APSIs) throughout the summer for all new AP Seminar and AP Research instructors. School leaders aren't required to attend this professional development but may use this opportunity to deepen their understanding of the program and may make a special request to attend. Teachers complete training once before their first year teaching the course—this isn’t an annual requirement.

A limited number of scholarships for teachers from eligible schools are available through an application process.

The fee for professional development is updated annually and includes the required four-and-a-half-day summer professional development and associated training materials.

Note: The professional development fee doesn’t include travel, lodging, some meals, credit card processing fees for registration, or incidentals. Additional training may be required at the school’s expense if assessment scoring performance doesn’t meet College Board standards. Fees for professional development are subject to change annually.

See collegeboard.org/apcapstonepd for more information.
EXAM FEES
The 2019-20 exam fee for AP Seminar and AP Research is $142 each, and schools retain a $9 rebate per exam. An exam order for AP Seminar and/or AP Research must be submitted for all students included in the exam roster in AP Registration and Ordering. The College Board provides a $32 fee reduction per exam for students with financial need. Schools are expected to forgo their $9 rebate for these students. Many states use federal and state funding to further reduce the exam fee for these students. The AP Program will update state subsidy information posted on AP Central (collegeboard.org/apexamfeeassistance) as soon as each state finalizes their 2020 funding plan.

See Part 1 of the AP Coordinator’s Manual for detailed information about billing and fees.

ADDITIONAL COSTS
See the Resourcing Your AP Capstone Program section below for additional costs schools should consider when exploring implementation.

Resourcing Your AP Capstone Program
All AP Capstone students will receive digital access to EBSCO Academic Search Complete and Turnitin via the AP Digital Portfolio when enrolled in AP Seminar or AP Research at no additional cost.

REQUIREMENTS
Teachers and students need high-speed internet access and technology to conduct research, complete multimedia presentations, and submit team and individual projects. Schools should be sure their technology infrastructure offers the bandwidth to perform these tasks.

Schools and districts should consider the following recommendations even though they’re not mandatory:

- Compensation and/or release time for teachers to take online scoring training and score students’ through-course assessments
- Extra time before or after school, or on weekends, for students to give their multimedia presentations (and to free up class time)
- Staff designated to support students enrolled in the AP Capstone program (e.g., librarian, media specialist, or expert adviser)
- Extra time during faculty meetings to explain the AP Capstone program and align curriculum with AP courses
- Professional development time to allow AP Capstone teachers to meet as a Professional Learning Community (PLC)
- Professional development funding for AP Capstone teachers to attend AP Annual Conference sessions
- Release time for teachers to be AP readers
- Funding to reduce the AP Exam fee for AP Capstone students
- Meetings with parents to talk about the AP Capstone program
- Classroom furniture that facilitates group instruction and student collaboration
▪ Access to databases and online academic resources through the school library or media center
▪ One-to-one student access to computers, laptops, or tablets during AP Seminar and AP Research class time

Recruiting Students
Students who are motivated and prepared for college-level coursework are best suited for the program, but the program also benefits those students who show potential for AP coursework but haven’t yet enrolled in AP courses. Students should demonstrate curiosity about real-world issues, a willingness to take intellectual risks, and a dedication to acquiring the skills that colleges and universities value—critical inquiry, analysis, and research. In short, AP Capstone students have an interest in becoming curious, independent, and collaborative scholars.

RECRUITMENT TOOLS
▪ AP Capstone on AP Central: collegeboard.org/apcapstone
▪ AP Students website: apstudents.collegeboard.org
▪ AP Potential™: appotential.collegeboard.org

RECRUITMENT STRATEGIES
▪ Present AP Capstone at a Parent Night as an extension of or introduction to AP coursework.
▪ Provide AP Capstone brochures during an open house.
▪ Meet with rising grade 10 or grade 11 students before course selection.
▪ Discuss the benefits and challenges of AP Capstone in face-to-face meetings with potential candidates and parents.
▪ Develop teacher recommendations tailored to AP Capstone characteristics and requirements.
▪ Plan classroom visits by school leaders, counselors, and current AP Capstone students to talk about the benefits of the program, how the program works, and how it fits into students’ schedules.
▪ Recognize student participation and achievement through academic letters and honors distinctions.
▪ Direct students and parents to the AP Students website: apstudents.collegeboard.org.

RECRUITMENT OF STUDENTS WHO ARE NEW TO AP
AP Capstone can propel a diversity of students to pursue their own interests/passions. Students develop the tools to meaningfully and thoughtfully weigh in on issues that matter to them—whether local, regional, national, or global in nature. Students choose their own research topic for their theses. For some schools, AP Seminar may be used as a way to introduce students to the rigor of Advanced Placement® while providing the foundational skills that will complement other AP courses.
Scheduling AP Capstone Courses

AP Seminar and AP Research are flexible and may be offered as a sequence in grades 10 and 11, grades 11 and 12, or grades 10 and 12. Schools may offer a combination of sequences and align AP Capstone courses with an existing senior project requirement or existing AP courses.

We don’t recommend that AP Seminar be offered in grade 9. However, students in grade 12 can be encouraged to take AP Seminar if they understand that they won’t meet the eligibility requirements for the AP Capstone Diploma or the AP Seminar and Research Certificate.

AP Capstone schools can only offer AP Seminar in their first year of implementation. After the first year, schools can then introduce AP Research when ready.

**Note:** AP Seminar is a prerequisite for AP Research. See the **Prerequisite** policy on page 14 for more information.

**Making AP Capstone Work with Your School Schedule**

AP Seminar and AP Research are full-year courses enabling students to focus on college-level critical skills (AP Seminar) and college-level research skills (AP Research).

AP Seminar may be offered in a traditional schedule or an A/B block schedule. The Performance Task assessments usually begin toward the end of the first or the beginning of the second semester. The second Performance Task can't be started prior to January when the stimulus materials for that task are published by the College Board. Presentations must be scored and student work uploaded to the College Board by April 30 at 11:59 p.m. ET. Recommended completion dates for both are February 28 and April 15, respectively. The assessment schedule limits the ability to offer AP Seminar on a 4x4 block schedule. AP Seminar requirements can't be completed in a fall block-scheduled course. Although the 4x4 block schedule doesn't preclude offering the AP Capstone courses, it does require schedule variations.

AP Research may be offered in a traditional schedule or an A/B block schedule. The course can also be offered in a 4x4 block schedule, though this isn’t recommended. Offering AP Research on this schedule requires support and accountability measures to make sure students are supervised throughout the research process and that teachers have ample time to teach the required skills and score student presentations and oral defenses. Schools that offer AP Research in the fall semester need to design student supports to monitor student–adviser relationships and to ensure that research projects are completed on time. AP Research teachers need time to score student presentations before the April 30 11:59 p.m. ET submission deadline unless students are required to complete the research project and presentation before the end of the first semester. However, this limits the time available to students to complete the rigorous research project while completing other course requirements. Schools that offer AP Research in the spring semester should know that students have less time to complete the research project and presentation, since all scored student work must be submitted to the College Board by April 30 at 11:59 p.m. ET.
SCHOOLS OFFERING AP SEMINAR AND AP RESEARCH
IN A 4X4 BLOCK SCHEDULE
Due to the design of the through-course performance tasks in AP Seminar and AP Research, it isn't ideal to offer AP Seminar and AP Research in a 4x4 block schedule. However, if your school proceeds with this type of schedule, please consider the following:

- **Schedule as full-year course.** AP Seminar and AP Research are both offered as full-year instructional classes spanning all semesters/trimesters/quarters/etc. Schools pursuing this schedule must ensure that the same students are enrolled in the same classes during all semesters. This would require students to pair AP Seminar or AP Research with another course.

- **Schedule as fall semester course with dedicated support during spring semester.** AP Seminar and AP Research are offered during the fall semester; this allows students to have dedicated independent work time and access to AP Seminar and AP Research teachers and classmates.

Schools pursuing this option for AP Seminar should schedule dedicated instructional days during the second semester for AP Seminar students and teachers to review the following:

- **Performance Task 1.** Team Multimedia Presentations, if not completed in the prior semester
- **Performance Task 2.** Instructions and stimulus materials, which are released in January
- **Performance Task 2.** Individual Multimedia Presentations

**Class Size Recommendations**
Although decisions about class sizes are made by individual schools, the recommended class size for AP Seminar and AP Research courses is 20–24 students, an optimal size for fostering collaboration and teaching presentation skills. School leaders scheduling AP Capstone courses should consider the responsibilities and requirements of teacher assessment scoring. For example, an AP Research teacher with 40 students will need to schedule and score 40 Presentations and Oral Defenses, each requiring 20 minutes. School leaders and teachers need to coordinate closely to ensure that there’s enough time to schedule presentations and assessment scoring activities to meet the April 30, 11:59 p.m. ET deadline.

**Positioning AP Capstone Courses in Your Master Schedule**
The flexibility of AP Capstone allows program implementation in a variety of settings and in academic disciplines of choice. Because AP Seminar and AP Research are both skills based, the courses can be associated with any academic content area. Schools may position the courses as required core classes or as electives, so long as they abide by any applicable state and district policies. Schools should also confirm that course designations of AP Seminar and AP Research align with entry requirements of higher education destinations for their students.
The following table lists implementation models, along with the pros and cons associated with each. These options help meet the demands of the school curriculum, state and district requirements, and local school traditions and culture.

</table>
| Distinct, tailored sections or academy setting | AP Capstone courses are offered in multiple sections tailored to emphasize a specific area of interest or in the context of an existing school program. For example, AP Seminar or AP Research or both are offered as both a science and a social science course or as part of a public service or health sciences academy. | - Allows students to focus on a particular area of interest while acquiring a broad perspective on real-world issues.  
- Enhances an existing content curriculum or academy curriculum in preparation for specialized higher education. | - Limits the opportunity for students to explore topics and perspectives outside of their interest areas.  
- Limits the interest of students who may not fall within specific departmental or academy requirements. |
| Non-AP course anchor | AP Capstone courses are integrated with existing non-AP courses. For example, AP Seminar and an art history elective are taught concurrently, or AP Research and a statistics elective are taught concurrently. | - Provides an instructional framework for the existing course.  
- Provides students with the opportunity to learn specific academic content, along with the skills taught in AP Seminar and AP Research.  
- Fosters collaboration between teachers in different content areas. | - Creates tension between the original curriculum and the requirements of AP Seminar and AP Research.  
- Limits students’ ability to explore issues that speak to their personal interests. |
| Independent, interdisciplinary elective | AP Capstone courses are offered as independent electives. (Note: AP Seminar is a prerequisite to AP Research. AP Research can’t be offered independently.) | - Provides students with college-level critical skills that can be applied across disciplines.  
- Benefits those students who show potential for AP coursework but haven’t yet enrolled in AP courses. | - Elective designation may limit opportunities for students to complete both AP Seminar and AP Research. |

</table>

**Adding AP Capstone to Student Transcripts**

Schools may choose to add a subtitle to their AP Seminar or AP Research courses (e.g., AP Seminar: [Subtitle]) that indicates a special disciplinary focus or emphasis as long as it complies to district, local, and/or state policies.

**Addressing the AP Capstone Diploma Requirements**

To earn the AP Capstone Diploma, students must earn a score of 3 or higher in both AP Seminar and AP Research as well as a score of 3 or higher on four additional AP Exams of their choosing. The exams may be taken at any time during high school and need not be concurrent with the AP Seminar and the AP Research courses. No specific AP courses, other than AP Seminar and AP Research, are required for the AP Capstone Diploma.

**Accessing AP Capstone Awards**

Students who earn the AP Capstone Diploma or AP Seminar and Research Certificate can view and print their diploma or certificate online through their AP score report in July. The award is also acknowledged on any AP score report that is sent to colleges after the award has been conferred.

Administrators can access this information through their AP educator score reports.

**Staffing AP Capstone Courses**

The selection of AP Seminar and AP Research teachers is critical to the success of the AP Capstone program. The most effective AP Capstone teachers are those who are curious about real-world issues, are competent in teaching a skill-based rather than a content-based course, and are master facilitators of student learning, allowing students to take charge of their own learning. Teachers who have experience conducting and/or supervising independent research may be considered as well.

**AP Seminar and AP Research teachers aren't required to have specific content-area certification unless this is stipulated by local, district, or state policy.**

All AP Seminar and AP Research teachers are required to attend professional development before their first academic year teaching the respective course.
Note: Administrators should be aware of the amount of time needed for scoring student work when assigning teachers to multiple sections of AP Seminar and/or AP Research. Although AP Seminar teachers may also teach AP Research, administrators should ensure that they are properly supported, especially in the spring when student work and teachers’ scores are submitted.

The most successful AP Seminar and AP Research teachers demonstrate the ability to:

- Explore academic and real-world questions, problems, and issues from different disciplines and from multiple perspectives.
- Teach college-level thinking and research skills such as writing a thesis, conducting research, evaluating sources, developing arguments, and designing, planning, and conducting a research-based investigation.
- Teach time management, collaboration, oral communication, and presentation skills.
- Facilitate student learning in collaborative settings such as workshops and tutorials.
- Motivate students to think critically and innovatively about research questions.
- Collaborate closely with an AP Capstone team that includes administrators, AP teachers, media specialists, school counselors, and expert advisers.
- Manage scoring and submit student work according to submission deadlines.
- Modify instruction style in order to accommodate through-course performance tasks and skills-based learning outcomes.

Prior experience teaching AP or other college-equivalent courses taught in their high school isn’t required.

The following table offers several staffing models along with the pros and cons associated with each.

<table>
<thead>
<tr>
<th>SCENARIO</th>
<th>PROS</th>
<th>CONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Different teachers are assigned to AP Seminar and AP Research courses.</td>
<td>Teachers are able to specialize in the skills required for success in each course.</td>
<td>Teachers must coordinate a transition from AP Seminar to AP Research to take advantage of the weeks after the AP Seminar assessments are complete.</td>
</tr>
<tr>
<td></td>
<td>Students are exposed to two teachers with different strengths that support a diverse learning experience.</td>
<td>Teachers must establish and maintain expectations across two courses through collaborative planning.</td>
</tr>
</tbody>
</table>
### SCENARIO

Teachers loop with a cohort of students from AP Seminar to AP Research.

**PROS**
- Teachers establish a relationship with students in a two-year experience that fully develops student strengths and bridges student weaknesses.
- Teachers are able to build a seamless transition from AP Seminar to AP Research by maximizing use of available instructional time.

**CONS**
- Schools incur a training cost increase because they must send two teachers to the required AP Seminar and AP Research professional development.
- Teachers need expertise and a level of comfort in college-level skill development and college-level research methodology.

Two teachers are assigned to AP Seminar or AP Research in a team-teaching structure.

**PROS**
- Teachers from two different disciplines support a variety of student interests.
- Teachers share responsibility for scoring assignments.

**CONS**
- Training costs increase because schools must send two teachers to the required AP Seminar professional development.
- FTE or local district requirements may limit shared responsibility for one course.

---

### Getting Others Involved

School leaders should consider convening an AP Capstone team of faculty members to help in the implementation of this new program. Regular team meeting agenda items might include management of program implementation, student and teacher support issues, student recruitment, communication with parents and the community, and planning for vertical and horizontal articulation of AP Capstone skills. School or district leaders might also consider appointing a point person for AP Capstone to chair team meetings, ensure effective internal and external communication, and serve as program liaison to the College Board. It is suggested that this point person be the school principal, AP coordinator, or AP Capstone teacher, who will receive important messaging from the College Board on key updates and deadlines.

Additional AP Capstone team roles and responsibilities include the following:

#### SCHOOL LEADERS
- Form the AP Capstone team and collaborate with faculty and staff to develop an AP Capstone implementation strategy.
- Create a master schedule that supports broad student enrollment and effective instruction.
- Ensure that teachers have time to complete online scoring training and score student presentations.
- Be sure that teachers and students have access to required high-speed internet and technology appropriate to conduct research, complete multimedia presentations, and submit team and individual projects.
Fund required summer professional development and ensure release time for teachers to attend online scoring training.

Support AP Capstone implementation in communications with students, faculty, parents, and the community.

Read all communications from the College Board about updates to the AP Capstone program.

**TEACHERS**

- Attend required professional development for AP Seminar and/or AP Research.
- Facilitate student learning.
- Score student presentations and ensure timely upload of student work to the College Board.
- Initiate relationships with colleagues or leaders from community organizations, getting them involved in the AP Capstone program as guest lecturers or expert advisers.
- Manage student–adviser relationships.
- Assist school leadership in the vertical and horizontal expansion of AP Capstone skills.

**LIBRARIANS/MEDIA SPECIALISTS**

- Ensure that students have access to college-level research materials, including online tools such as EBSCO, JSTOR, and ProQuest. Access to EBSCO Academic Search Complete is provided to AP Seminar and AP Research teachers and students at participating AP Capstone schools.
- Assist students in identifying and researching a variety of questions across multiple disciplines.
- Contribute to workshops and tutorials that address specific research issues.
- Work with teachers to conduct relevant lessons on research practices.

**COUNSELORS**

- Familiarize themselves with AP Capstone so they can share highlights of the program with parents and visiting college admissions representatives.
- Assist in identifying students for participation in AP Capstone.
- Help students communicate AP Capstone accomplishments to colleges and universities.
- Ensure that student course selections meet AP Capstone Diploma and/or AP Seminar and Research Certificate requirements.

**Expert Advisers for AP Research**

Expert advisers are an essential part of the AP Research course and may be drawn from the faculty, the community, local business and industry, or higher education. A designated staff member may also coordinate a pool of advisers for the AP Research course and match students with advisers. AP Research teachers and school administrators identify school and district policies that pertain to students who are engaging virtually or face-to-face with external advisers, and they communicate such policies to parents, students, and potential advisers. See pages 51–52 of the *AP Research Course and Exam Description*. 
Recognition from Higher Education

ADMISSIONS BENEFITS
AP Capstone Diploma candidates enjoy a variety of admissions benefits from colleges and universities before, during, and after application cycles. Various benefits include invitations to meet with research faculty, direct admission into honors programs, and opportunities to join undergraduate research projects.

To facilitate admissions recognition, school leaders and students should indicate participation in the AP Capstone Diploma program in the following ways:

- **School reports to higher education.** School leaders include their school’s participation in the AP Capstone Diploma program, along with the number of AP Capstone Diploma awards.

- **Counselor recommendations.** Counselors identify students as AP Capstone Diploma candidates on recommendation forms, including third-party applications such as the Common Application and the Coalition Application.

- **Teacher recommendations.** AP Seminar and AP Research teachers highlight student research projects.

- **Individual honors.** Students designate themselves as AP Capstone Diploma candidates, AP Capstone Diploma recipients, or AP Seminar and Research Certificate recipients in the awards/honors sections of their applications.

- **Include courses on transcripts.** Students and schools indicate AP Seminar and AP Research on high school course transcripts.

- **Admissions interviews and essays.** Students discuss their AP Seminar or AP Research work during admissions interviews and in their admissions essays, where appropriate.

- **Sending AP Seminar and AP Research scores.** Students send AP Seminar and AP Research scores to their preferred higher education institutions.

*Note:* AP Capstone Diploma candidates are defined as students who have earned a score of 3 or higher in AP Seminar, are enrolled or plan to be enrolled in AP Research, and are also likely to earn a 3 or higher on four additional AP Exams, as determined by school administrators.

CREDIT AND PLACEMENT BENEFITS
Several colleges and universities award credit for the successful completion of AP Seminar and AP Research. The College Board currently provides information that colleges, universities, and state systems need to make sound, data-driven policy decisions regarding recognition of success in AP Capstone courses.

For more information about credit and placement policies for AP Seminar and AP Research, visit the following websites:

- For a full list of colleges and universities that either endorse the AP Capstone program or have credit policies for AP Capstone courses, see [collegeboard.org/apcapstonehedsupport](http://collegeboard.org/apcapstonehedsupport).

- For specific credit and placement policies at particular colleges and universities, see the AP Credit Policy Search at [collegeboard.org/apcreditpolicy](http://collegeboard.org/apcreditpolicy).
For Teachers

Staying in Touch with the AP Capstone Program
The AP Capstone program team keeps teachers posted on important updates throughout the year. Teachers should make it a priority to read all emails and documentation sent to them. Email is the College Board main method of connecting teachers to valuable information needed to build a successful program at their school. Emails from the AP Capstone program are sent to AP Seminar and AP Research teachers with AP Course Audit authorized courses at the email address associated with their College Board professional account. Teachers should complete their authorization as soon as possible to receive all important communications and are encouraged to archive all communications and reference them as needed. Teachers should add the following sender email address to their contacts to prevent emails reaching their junk folder: collegeboard@e.collegeboard.org.

For questions related to the program, contact AP Services for Educators at 877-274-6474 (toll free in the U.S. and Canada) or apcapstone@info.collegeboard.org.

AP Capstone teachers are encouraged to join the teacher community associated with the courses they teach at apcommunity.collegeboard.org.

AP Capstone Course Audit Steps
Following the four-and-a-half day, face-to-face training, new AP Seminar and AP Research teachers are equipped to prepare a course syllabus. The following activities must be completed within their AP Course Audit account no later than October 1:

- Teacher—Complete the Course Audit form
- Teacher—Submit course syllabus
- Principal/Administrator—Review and approve the Course Audit form

New teachers can access AP Classroom and the AP Digital Portfolio after their Course Audit form has been approved.

Some states and districts may have earlier submission deadlines. Teachers are encouraged to check with school administrators to determine if they should submit syllabi to other authorizing systems before the October 1 deadline.

AP Seminar and AP Research teachers must develop and submit a syllabus of their own creation and can't submit the sample syllabus provided during training.

All new 2019-20 AP Capstone teachers must complete a Course Audit form and submit a syllabus for review.

All previously authorized courses can be renewed by a school administrator beginning May 20, 2019.
Ensuring Students Understand the Directions for the Performance Tasks

Teachers must review the directions for completing each component of the AP Seminar and AP Research performance tasks, as well as all parts of the AP Seminar End-of-Course Exam, with their students. Specific attention should be paid to: (1) word count, (2) presentation time, and (3) oral defense practices.

See pages 36–45 of the *AP Seminar Course and Exam Description* and pages 47–53 of the *AP Research Course and Exam Description*.

Teacher Roles During the AP Capstone Performance Tasks

If you’re an AP Seminar teacher, you (1) must ensure that students are aware of the task, time, components, and scoring criteria for each performance task; (2) may explore issues, talk about stimulus materials, discuss topics and perspectives, and/or question students as necessary; (3) may create opportunities for peer review and editing; (4) should refer students to the rubrics for each component; and (5) may engage in whole-class teaching or reteaching, if needed.

If you’re an AP Research teacher, you (1) must provide any necessary assistance to students in finding external expert advisers; (2) must be sure that students, advisers, and panel members are aware of the task, time, components, and scoring criteria; (3) must hold regular, individual work-in-progress interviews with students; (4) must coordinate peer-to-peer feedback opportunities; (5) may provide necessary background for a topic; (6) may help students with the mechanics of the research process; and (7) may provide general feedback to students about elements of their papers or presentations.

Please note that AP Capstone teachers **may not** (1) assign, provide, distribute, or generate research questions/project goals or articles for students; (2) conduct research for students; (3) write, revise, amend, or correct student work; (4) reveal the exact questions students will be asked prior to their presentations or oral defenses; or (5) provide unsolicited help to students.

We recommend that all AP Capstone teachers be transparent with students about their roles and what any individual providing guidance to students should and should not do.

For more information about the roles of AP Capstone teachers, see pages 38–43 of the *AP Seminar Course and Exam Description* and pages 50–51 of the *AP Research Course and Exam Description*.

Submitting Student Work Using the AP Digital Portfolio

Students taking AP Seminar and AP Research use the **AP Digital Portfolio** at [digitalportfolio.collegeboard.org](http://digitalportfolio.collegeboard.org) to submit performance tasks as final.

Your school’s AP Capstone teachers, students, and AP coordinator interact with the digital portfolio throughout the school year. The diagram below illustrates the roles and major tasks in the process.
Digital Submission for AP Capstone

- Completed in My AP
- Completed in AP Digital Portfolio

1. **AP coordinator** signs in to [myap.collegeboard.org](http://myap.collegeboard.org) at the start of school year and creates AP Seminar and AP Research class sections. The coordinator notifies teachers when class sections have been created.

2. **Teachers** sign in to [myap.collegeboard.org](http://myap.collegeboard.org) and get the join code for each class section they teach to distribute to students during class.

3. **Students** sign in to [myap.collegeboard.org](http://myap.collegeboard.org) with College Board accounts and enroll in an AP Seminar or AP Research class section using the join code provided by their teacher or AP coordinator. If instructed to do so by the AP coordinator, students also indicate their exam registration in My AP.

4. **AP coordinator** submits the exam order for all students included in the exam roster in AP Registration and Ordering.

5. **Teacher** creates AP Seminar student teams for team assignments.

6. **Teacher** distributes College Board–provided source material to AP Seminar students.

7. **Students** submit final written performance tasks as final in the AP Digital Portfolio no later than April 30 at 11:59 p.m. ET or an earlier deadline set by their teacher.

8. **Teacher** submits scores for student presentations in the AP Digital Portfolio by April 30 at 11:59 p.m. ET.

9. **AP coordinator** verifies that all presentations have been scored and that all students have submitted their written performance task components as final in the AP Digital Portfolio by April 30 at 11:59 p.m. ET.

10. Performance tasks and scores for all students that the coordinator has ordered an exam for will be automatically transmitted to the [College Board](http://collegeboard.org) at the deadline.

**TECHNICAL REQUIREMENTS AND RECOMMENDATIONS FOR THE AP DIGITAL PORTFOLIO**

- **Browsers**: Latest version of Chrome, Safari, Edge, Internet Explorer, Firefox, or Samsung Internet
- **Operating systems**: Windows 7, 8.1, 10; Mac OS X; Chrome OS; Android 6, 7; or iOS
- **Devices**: Desktop/Laptop, Tablet, or Mobile (scoring feature isn’t available on mobile devices)

For more information on the digital portfolio, see the **AP Digital Portfolio Teacher User Guide** and the **AP Digital Portfolio Student User Guide**.
**Due Dates for AP Seminar and AP Research Performance Tasks**

The deadline for all student work and teacher scores for all performance tasks to be submitted to the AP Digital Portfolio is April 30 at 11:59 p.m. ET. Although the College Board recommends interim deadlines for each component of the performance tasks, teachers may choose to set their own interim deadlines, which will be determined by their school calendars and schedules.

**Scoring Student Work**

Typically, AP teachers participate in the scoring process of AP Exams only if they have applied for and been selected to serve as AP readers. However, because students' final AP scores for AP Seminar and AP Research include presentations that aren't scored at the AP Reading, the College Board collects the classroom teacher's scores for these components.

AP Capstone teachers can't score student performance tasks until they have completed online scoring training, which is available to teachers during the school year.

For student samples of performance tasks, as well as rubrics used to score performance tasks, see the AP Seminar and AP Research assessment pages on AP Central.

*Note: AP Seminar or AP Research teachers are discouraged from sharing the scores they assign to performance task components with their students. Final student AP scores are calculated from scores earned on all components, according to their corresponding weights.*

**AP Seminar End-of-Course Exam Date**

The 2020 Exam Date for the AP Seminar End-of-Course Exam is Tuesday, May 12, 2020, at 8 a.m. local time. See Exam Dates and Fees for the other exam dates.

For detailed information about ordering and administering late exams, see Part 1 of the AP Coordinator’s Manual.

**Getting Involved with the AP Reading**

The College Board encourages AP Seminar and AP Research teachers to apply to become AP readers. By participating in the AP Reading, teachers ensure that AP Exams continue to measure a student’s ability to master college-level work. Being an AP reader is a valuable experience that improves a teacher’s instruction and lets them acquire knowledge to apply when scoring their own students’ work.

AP readers for AP Capstone courses can take advantage of flexible scheduling options, opportunities for professional development hours, and Continuing Education Credits (CEUs), as well as compensation.

For more information and to apply, visit collegeboard.org/readap.
For AP Coordinators

The AP Capstone section of Part 2 of the AP Coordinator’s Manual is the primary source of information for AP coordinators at participating AP Capstone schools. Download the manual, and review the AP Capstone timeline for AP coordinators at collegeboard.org/apcapstonecoordinator.

Role of the AP Coordinator in AP Capstone

AP coordinators:

- create class sections in AP Registration and Ordering for their school’s AP classes (see below for details);
- manage the ordering, receipt, distribution, administration, and return of AP Seminar End-of-Course Exam materials for each student enrolled in the AP Seminar course;
- order an AP Research Exam for each student enrolled in the AP Research course; and
- validate that uploaded student work is submitted as final by the April 30 at 11:59 p.m. ET submission deadline and that all presentations have been scored by AP Seminar and AP Research teachers.

AP Research doesn’t have an end-of-course exam, but an exam must be ordered online through AP Registration and Ordering for a student in order for their performance task to be scored by the College Board.

AP coordinators don’t have to manually submit work to the College Board through the AP Digital Portfolio for it to be scored at the AP Reading. All performance tasks that have been submitted as final by a student, and any teacher scores associated with those performance tasks, will automatically be sent to the College Board for scoring after the deadline as long as an exam was ordered for them.

Note: When students provide their registration information in My AP when first enrolling in a class section, they’ll be assigned a unique, alphanumeric AP ID. This AP ID replaces the AP number and will automatically be added to the digital portfolio.

Creating Class Sections

At the start of the school year, you’ll create your school’s AP Seminar and AP Research class sections in AP Registration and Ordering. These sections will automatically carry over to the AP Digital Portfolio, where AP Capstone students will submit their performance tasks, and teachers will score their work. Students enroll in their AP Seminar or AP Research class section through My AP. They don’t have to enroll in the AP Digital Portfolio separately.

Accessing the AP Digital Portfolio

AP coordinators will receive an email with information about accessing the AP Digital Portfolio. After signing in with their College Board username and password, AP coordinators will see all of the AP Capstone class sections that were created on myap.collegeboard.org and all students enrolled in each one. A legend at the top of the page helps AP coordinators determine each student’s status, their progress toward final submission of their work, and whether their presentations have been scored by their teacher.
Checking for Missing Data in the AP Digital Portfolio

AP coordinators should view the status of their school’s AP Seminar and AP Research submissions and work with the teacher(s) before April 30 at 11:59 p.m. ET to resolve:

- Missing student final submissions
- Missing teacher scores on presentations

Additional Resources

You may find the following resources helpful. Share these resources with the appropriate stakeholders in your school community to foster a successful implementation.

- The list of participating schools by state helps you form relationships with those currently implementing AP Capstone.
- The AP Capstone student brochure provides an overview of the AP Capstone program and is geared toward a student audience.
- The AP Seminar Course Overview is a short, two-page overview of the course content and assessments for AP Seminar.
- The AP Research Course Overview is a short, two-page overview of the course content and assessments for AP Research.
- The AP Capstone section of AP Central has a list of colleges and universities that have confirmed their support for AP Capstone by signing a statement of support endorsing its rigorous interdisciplinary approach and/or by granting credit for a qualifying score in AP Seminar, AP Research, or both.
- This AP Capstone video provides an overview of the program with supporting commentary from prominent higher education admissions professionals.
- The second AP Capstone video features two of our current AP Seminar students, who speak about their experiences with AP Seminar and the AP Capstone program.
- The third AP Capstone video features students discussing their projects and topics of inquiry in the AP Research course.
- The AP Seminar and AP Research course pages on AP Central contain teaching tips, information, resources, and other helpful content for both courses.
- The AP Digital Portfolio Student User Guide tells students how to use the digital portfolio, including submitting work as final and entering their AP numbers.
- The AP Digital Portfolio Teacher User Guide tells teachers how to use the digital portfolio, including creating classes, managing teams, and scoring student work.
### 2019-20 Important Dates

<table>
<thead>
<tr>
<th>DATE</th>
<th>ACTIVITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>June–August</td>
<td>AP Seminar and AP Research professional development.</td>
</tr>
<tr>
<td>August 1</td>
<td><strong>My AP</strong> (<a href="http://myap.collegeboard.org">myap.collegeboard.org</a>) opens.</td>
</tr>
<tr>
<td>August–September</td>
<td>AP Seminar and AP Research instruction begins. Students can access EBSCO and Turnitin through the <strong>AP Digital Portfolio</strong> once they have enrolled in their AP Seminar or AP Research class section in <strong>My AP</strong>.</td>
</tr>
<tr>
<td>October 1</td>
<td>Deadline for new teachers to complete the <strong>AP Course Audit</strong> form and submit course syllabi. Designated administrators must approve Course Audit forms prior to this date. Administrators must renew previously authorized courses.</td>
</tr>
<tr>
<td>October 4</td>
<td>Preferred deadline for AP coordinators to order AP Exams through <strong>AP Registration and Ordering</strong>.</td>
</tr>
<tr>
<td>November 15 at 11:59 p.m. ET</td>
<td>Final deadline for the AP coordinator to submit the exam order through <strong>AP Registration and Ordering</strong>. No payment is due to College Board until June. Exams ordered or canceled after this date may incur a fee.</td>
</tr>
<tr>
<td>November 30</td>
<td>Recommended deadline for students to submit and teachers to approve AP Research Proposal Forms.</td>
</tr>
<tr>
<td>December</td>
<td>Required online scoring training for AP Seminar and AP Research launches.</td>
</tr>
<tr>
<td>January</td>
<td>Stimulus material for the AP Seminar Individual Research-Based Essay and Presentation is released to AP Seminar teachers in the <strong>AP Digital Portfolio</strong>.</td>

About College Board

College Board is a mission-driven not-for-profit organization that connects students to college success and opportunity. Founded in 1900, College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education. Each year, College Board helps more than seven million students prepare for a successful transition to college through programs and services in college readiness and college success—including the SAT® and the Advanced Placement® Program. The organization also serves the education community through research and advocacy on behalf of students, educators, and schools.

For further information, visit collegeboard.org.
