

AP[®] Physics 2006-2007 Professional Development Workshop Materials

Special Focus: Graphical Analysis Revisions

Please note the following corrections:

- The solution for graph c on page 10 should read: **Solution:** Object starts to the left of the origin and moves in the negative direction with constant velocity.
- The solution for graph d on page 10 should read: **Solution:** Object starts to the left of the origin, moves in the positive direction with constant velocity ending at the origin."
