Individual Written Argument (IWA)**48 points****General Scoring Notes**

When applying the rubric for each individual row, you should award the score for that row based solely upon the criteria indicated for that row, according to the preponderance of evidence.

0 (Zero) Scores

- A score of 0 is assigned to a single row of the rubric when the response displays a below-minimum level of quality as identified in that row of the rubric.
- Scores of 0 are assigned to all rows of the rubric when the response is **off-topic**; a repetition of a prompt; entirely crossed-out; a drawing or other markings; or a response in a language other than English.

Off-Topic Decision:

For the purpose of the IWA, if the response is not in any way related to a theme connecting at least two of the stimulus materials it will be counted as off-topic and will receive a score of 0.

- Considering the student-oriented scoring approach of the College Board, readers should reward the student who derives their ideas from at least two of the stimulus materials, even if they wandered away from them as they pursued their topic.
- If you can infer any connection to a theme derived from two or more stimulus materials, the response should be scored. A failure to adequately incorporate the stimulus materials falls under rubric row 1, not here.

A READER SHOULD NEVER SCORE A PAPER AS OFF-TOPIC. INSTEAD, DEFER THE RESPONSE TO YOUR TABLE LEADER.

NR (No Response)

A score of NR is assigned to responses that are blank.

<p>Row 1</p> <p>Understand and Analyze Context</p> <p>(0 or 5 points)</p>	<p>0 points</p> <p>The response does not incorporate any of the stimulus material, or, at most, it is mentioned in only one sentence.</p> <p>OR</p> <p>The response includes a discussion of at least one of the stimulus materials; however, it does not contribute to the argument.</p>	<p>5 points</p> <p>The response demonstrates the relevance of at least one of the stimulus materials to the argument by integrating it as part of the response. (For example, as providing relevant context for the research question, or as evidence to support relevant claims.)</p>
Decision Rules and Scoring Notes		
<p>Typical responses that earn 0 points include a reference to the stimulus material that:</p> <ul style="list-style-type: none"> • Is tangential. • May misrepresent what the sources are discussing/arguing or may use the source in such a way that ignores its context. • Is only used for a definition or facts that could be obtained from other, more relevant sources. • Is no more than a jumping-off point for the student’s argument, no more than a perfunctory mention. • Could be deleted with little to no effect on the response. <p>Typical responses that earn 5 points include a reference to the stimulus material that:</p> <ul style="list-style-type: none"> • Reflects an accurate understanding of the source and demonstrates an understanding of its context (e.g., date, region, topic). <p>AND</p> <ul style="list-style-type: none"> • Presents an essential and authentic reference to the source, which if deleted, would change or weaken the argument. 		
<p>Additional Notes</p> <ul style="list-style-type: none"> • References to stimulus materials may be included multiple times in the response; only one successful integration of stimulus material is required to earn points.

Individual Multimedia Presentation (IMP) and Oral Defense (OD)

48 points

General Scoring Notes

- Do not repeatedly rewind or re-listen to recorded presentations.
- There is a time limit. **Only the first 8 minutes** of any presentation are scored (excluding the oral defense).
- The defense is scored only after the presentation proper is scored. The defense does not impact the scores in the presentation.

Additional Scores

In addition to the scores represented on the rubrics, readers can also assign scores of **0 (zero)** and **NR (No Response)**.

A score of 0 is assigned to a single row of the rubric when the response displays a below-minimum level of quality as identified in that row of the rubric.

<p>Typical responses that earn 0 points:</p>	<p>Typical responses that earn 2 points:</p> <ul style="list-style-type: none"> • Provide visuals but almost none do work to guide the audience through the argument (e.g. most headings are topical rather than signposting argument). • Include many visuals that are unreadable or full of errors. • Include many visuals that serve no argumentative purpose (are random, misaligned to speaking, or irrelevant). • Include many visuals that have distracting pointless elements, confusing formatting, or disconnected elements. • Provide visuals that are just a list of keywords (no selection or use of design elements). The visuals may be predominantly speaker notes rather than audience aids. 	<p>Typical responses that earn 4 points:</p> <ul style="list-style-type: none"> • Provide visuals that guide the audience through the argument but may be at times illogical, confusing, or otherwise ineffective (headings signal an argument but visuals do little more than outline). • May include visuals that contain some noticeable, significant errors. • Include several visuals that display information overload or a poor selection of supporting words and images (decorative but not argumentatively purposeful, or unreadable in the time frame they are shown). • Demonstrate inconsistent visual and design cohesion across the presentation (e.g., hierarchy of information, cohesion of imagery, metaphor, parallel structure). 	<p>Typical responses that earn 6 points:</p> <ul style="list-style-type: none"> • Provide visuals that overall serve a clear purpose in organizing or advancing the argument (such as signposting, emphasis). • Include well-chosen words and images throughout to highlight key points or information. • Present visuals that contain little clutter or visual “noise”; they enhance rather than compete with the speaker’s message, there are no extraneous images or “data dumps”. • Create cohesion through consistency of design across the presentation. • Demonstrate effective use of design elements like charts and pictures (they add value), selection and emphasis of information help the audience understand the argument.
